

# **CSSE 461 DAY 1**

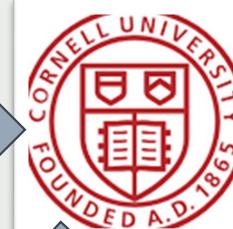

**INTRO SLIDES  
KYLE WILSON**

# My path:

2007 - 2011

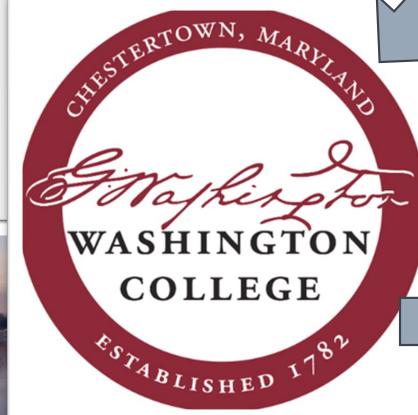

2011 - 2016

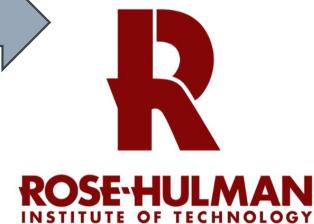

Cornell University

2016 - 2024

2024 -

# [Citation Needed]

CSSE 461 is a new course at Rose. But I'm adapting (and expanding on) the hard work of friends and colleagues.

Scott Wehrwein

(my PhD advisors!)

Kavita Bala

Noah Snavely

[and many of their underappreciated grad students over the years]

# Think-Pair-Share

The few slides will be questions for discussion.

For each one:

- **Think** about the question **individually** (~1 min)
- **Talk** about your response in **groups of 2-4**. (~2 min)
- **Share** your thoughts with **the class**. (~1 min)

**What can you reasonably expect to  
remember from your college  
education in 10 years?**

---

Discuss.

**What could you learn in this  
class that won't be obsolete  
in five years?**

---

Discuss.

# How do you use computer vision in daily life?

---

Discuss.

# How do you think we should use AI in this class?

---

Discuss.
